

LAURA WNUK

PROPS AND COSTUME ACCESSORIES WITH AN EYE FOR DETAIL

My work brings together craft,
backstage support and hands-on
stage experience.

Focused on fabrication, adaptation,
repair, handling, and logistics for
live performance, I approach each
task with a structured process.
I thrive where craft meets storytelling.
From creating and adapting objects
to supporting backstage, I bring
precision, curiosity and energy to
every project. My focus: giving
presence and life to objects that
carry the story and captivate the
audience.

I look forward to the opportunity to
collaborate in the future.

LE PORTEUR D'HISTOIRE

Props

**Production Support at
Cours & Jardins, Berlin**
En Scène - *Le Porteur d'histoire*
directed by Anaïs Caillaud

Construction and preparation of stage
props
Costume support and garment
alterations under budget constraints
Creation of costume accessories
Preparation for rehearsals and
performances
Coordination of props, costumes and
backstage requirements
Collaboration with performers and
director

*Illustrated with rehearsal documentation
and/or examples of props and costume
accessories developed within the production
process.*

May 2026 Stage props and participation in rehearsals

**Constraints
Technique**

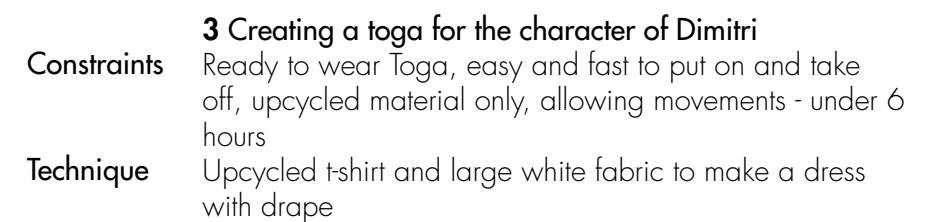

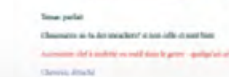

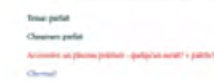

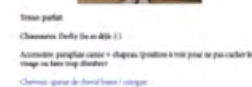

Building towers of old books
Lightweight, easy to handle on stage, stable, 5 days
Hollowing out and reconstructing books using cardboard
and paper, stack of books assembled with glue for easy
handling

LE PORTEUR D'HISTOIRE

Costumes

Select

**June
July 2026** Coordination and creation of costumes and accessories,
wardrobe assistant and dresser during the show

Constraints 1 Headpiece for the character of Marie Antoinette
Lightweight, comfortable, easy to put on and take off,
made exclusively from upcycled materials - under 3 hours
Technique Headband, beads, aluminium wire, coloured peacock
feathers

Constraints 2 Necklace for the character of Yolande
Lightweight, comfortable, easy to put on and take off,
made exclusively from upcycled materials - under one hour
Technique Embroidery of beads on satin ribbon with velcro closing

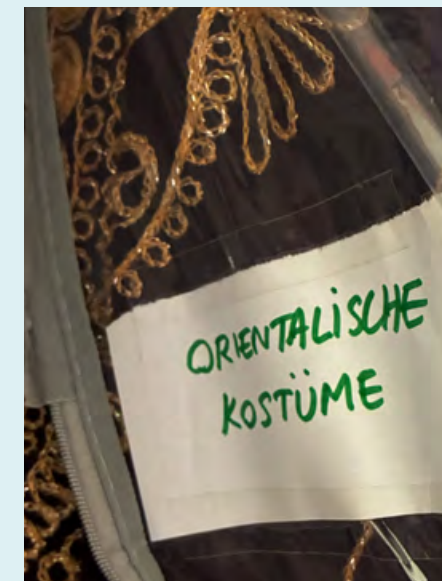

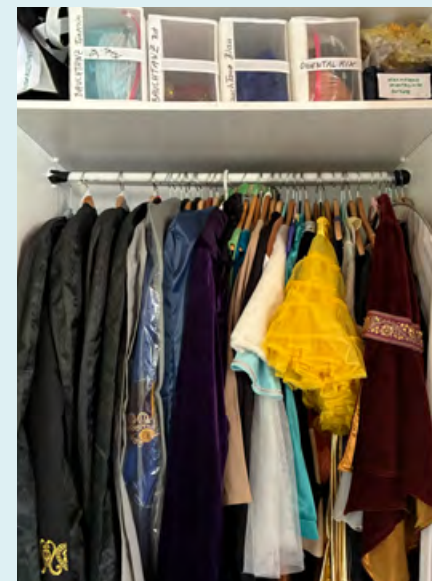

Constraints 3 Laced scarf for the character of Adélaïde
Create a brown beige piece using upcycled material -
under 4 hour
Technique Sewn white lace previously colored with black tea

Constraints 4 Pope cross necklaces
Create two big cross looking alike, rusty metal - under 1
hour
Technique Upcycled cardboard with brown rope

Constraints 5 Creating skirt for the character of Yolande
Open skirt, easy and fast to put on and take off, upcycled
lace fabric, allowing movements - under 1 hour
Technique Upcycled blue tulle, left open on the back

Backstage wardrobe support
Garment preparation and ironing
Costume organization and preset according to the running
order
Assisted performers with quick changes and dressing
for complex garments, including corsets, within tight
backstage time constraints (sometimes less than 3 minutes)

GALLI THEATER (GT) Costumes and Props Support

Props and Costumes Support at Galli Theater, Berlin

Props and costume inventory,
organization and tracking
Construction, preparation,
maintenance and repair of stage
props
Creation, alteration and care of
costume accessories

construction and scenic elements
Preparation for rehearsals and
performances
Coordination of props, costumes and
backstage requirements
Collaboration with performers,
director and production team

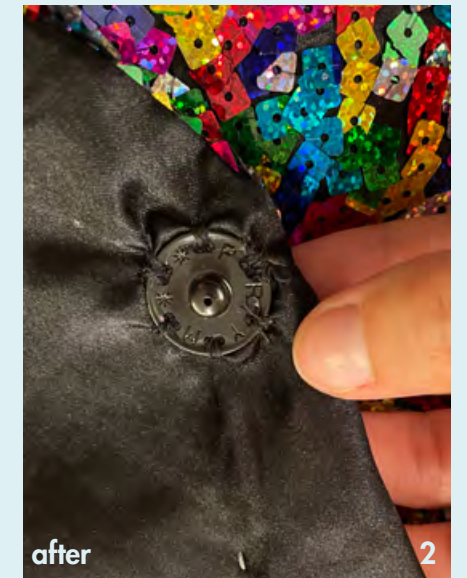

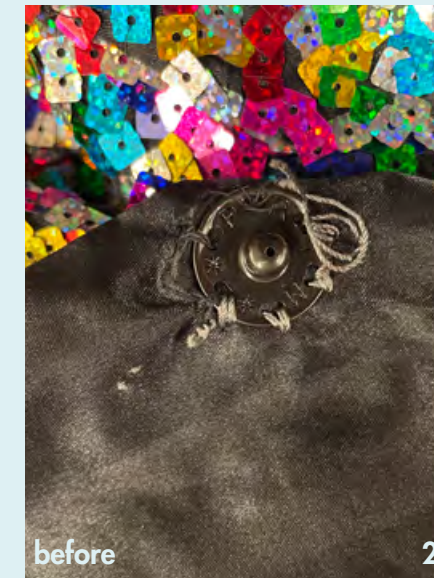

July 2026

Inventories
Prop lists
Labeling and tracking
Maintenance records (repairs, cleaning, replacements)
Production documentation

Selected examples of labeled storage boxes, costume racks, and costumes prepared for upcoming rehearsals and performances.

SEEJUNGFRAU (GT)

Costumes and Set design

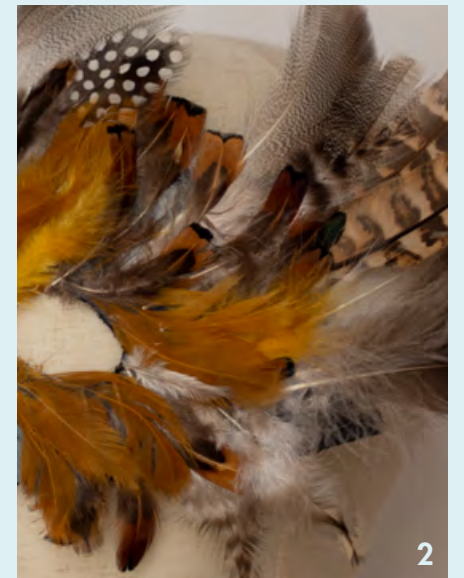

- July 2026** **Costumes and props inventory, repairs of costumes and costume accessories, set design**
- Constraint** **1 Headpiece for the character of Seejungfrau**
Restoration and adaptation of an existing headpiece while preserving its original identity - under 2.5 hours
- Technique** Hand sewing using upcycled fabrics and beads
- 2 Hand sewing bouton**
- 3 Stage Set Dressing**
Constraints Creation of an underwater atmosphere using only upcycled fabrics available in the costume fundus integrated into the existing stage curtains
Scenic installation completed in under 2 hours

Selected examples shown. Additional repairs and maintenance included hand sewing, gluing, and other practical backstage fixes were carried.

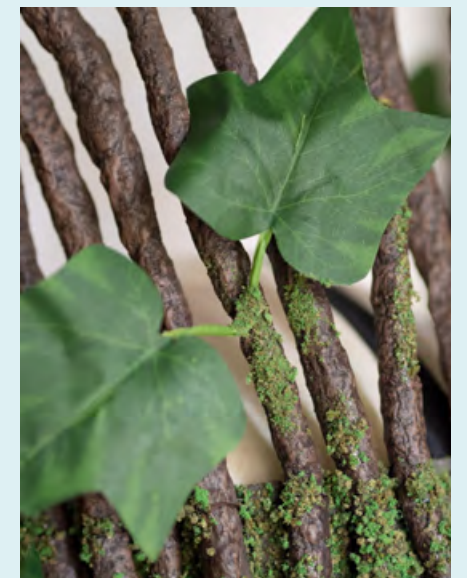

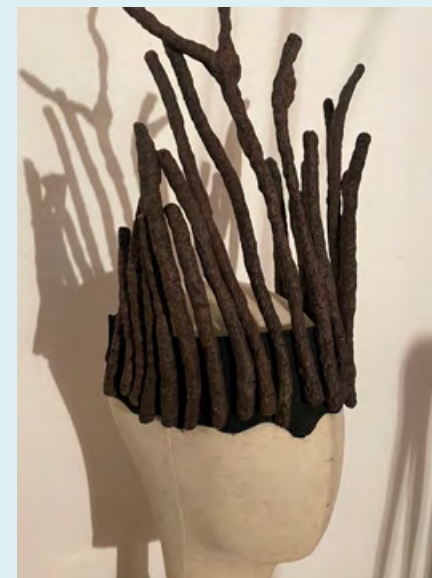

DER GESTIEFELTE KATER (GT)

Costumes

July 2026 **Costumes and props inventory, creation of costume accessory, repairs of costumes**

- Mask for the character of Rebhuhn**
- Constraints** **1** Initial mock-up: Last-minute fabrication of a mock-up for the following day's rehearsal, using only materials available in the costume fundus and inspired by the colors of a partridge - under 3 hours.
- Technique** Upcycled mask and feathers, constructed from cardboard and glue.
- Constraints** **2** Final version: Final mask inspired by the grey partridge, designed to be lightweight and adaptable to multiple performers - 3h30.
- Technique** EVA foam mask sewn onto black fabric for added stability, with feathers glued in place.

August
2026

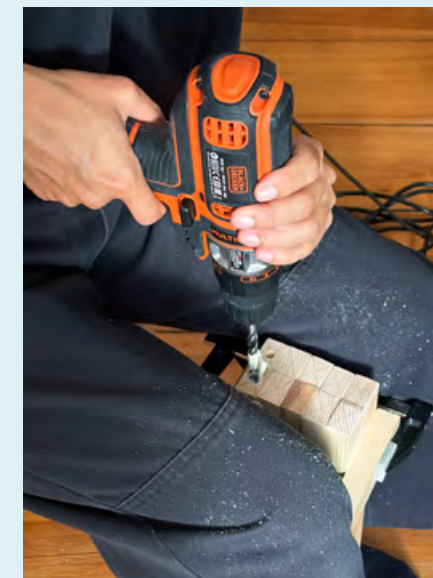

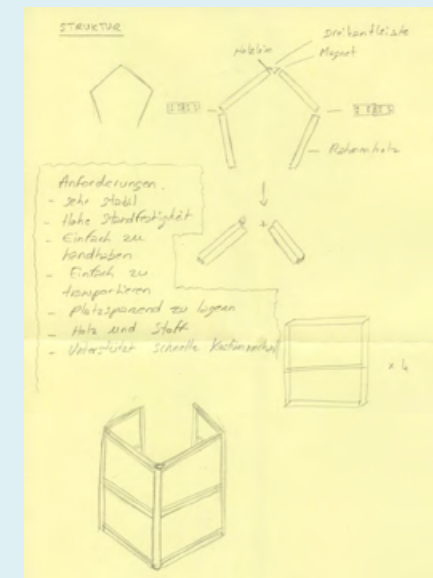

Creation of costume accessories

Constraints

Three headpieces for the characters of three trees
Adaptable fit for multiple performers, easy to put on and take off, lightweight and very sturdy. Easy to store and handle. Forest-inspired design made from upcycled materials - Approximately 2 weeks (including drying time)

Technique

Headband with an adjustable elastic band to fit different sizes,
Structure made from EVA foam and fabric for added strength and stability,
Branches made from wire, thin tubes and painted papier-mâché,
Moss made from painted sponge,
Leaves sewn onto the branches for extra strength and durability

Sept 2026 Creation of props

- Restoration and adaptation of an existing well**
- Constraints** Sturdy wood construction designed for easy storage and handling on and off stage, using the fabric of the old well, open on the back for easy access - Approximately 30h
- Technique** The wooden structure is made of two parts that connect with a magnetic system for quick assembly and disassembly. The painted fabric is attached to the wooden frame with Velcro. The stone elements are made from a combination of latex, paint and cotton, creating a lightweight textured volume.

EXHIBITIONS

Scenography and Support

2014
2016

Salons and Exhibitions, collaborative work

Coordinating with team, artists and venue owners,
Co-managing scenography,
Installing exhibitions,
Dealing with collector's books,
Arranging last-minute adjustments

PACKAGING MATERIAL HANDLING

Packaging and Handling delicate materials

Theater and Art pieces,
Raw and glazed ceramics during transport,
Jewelry during postal transport,
Glass

CONCEPTS RESEARCH

Costume Accessories

Personal projects adapted to stage

Transforming leftover materials (limited budget: 15€ per piece) into new stage designs inspired by *Salomé*, *Rusalka*, *Pelléas et Mélisande*, *The White Peacock*, *Undine*, *Pierrot Lunaire*, *Maria Stuarda*, and more.

Oct. 2025
Inspiration

Embroidered face mask - under 10€
Head piece inspired by *Salomé* and lucha-inspired masks. The veil becomes an armor, the pearls a ritualized seduction, and the mask a symbol of controlled power. A figure suspended between allure, dominance, and danger.

Technique

Breathable tulle layers sewed with embroideries

Duration

~ 5 days

CONCEPTS RESEARCH

Costume Accessories

Nov. 2025
Inspiration

Costume hat - under 10€
Head piece inspired by a Deutsche Oper costume and the lyric opera *Rusalka*.
Its iridescent surface evokes the fluidity and freedom of water, while the chains convey attachment and desire. A sculptural form poised between immersion and captivity, echoing *Rusalka*'s transformation.

Technique

Structure in papier-mâché and cardboard

Duration

~ 2,5 days

CONCEPTS RESEARCH

Costume Accessories

Jan. 2026
Inspiration

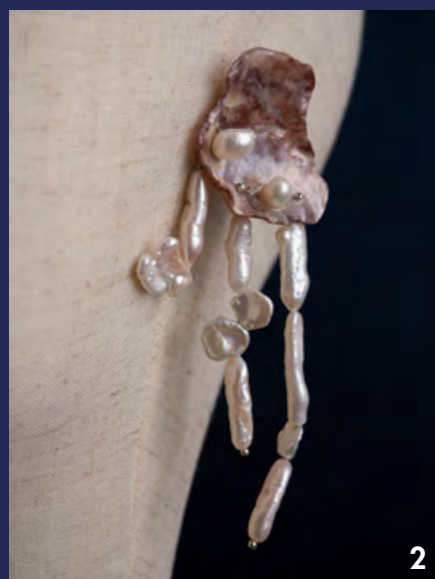

High head piece for stage use - under 15€
Inspired by *The White Peacock*, this headpiece approaches costume as a sculptural extension of the body. The vertical form recalls ceremonial guard headdresses, while cascading strands of crystals create a luminous rain that animates the silhouette. The piece balances authority and delicacy, reflecting the opera's ritualized visual language.

Technique

Lightweight cage structure with faux fur, feathers, beads

Duration

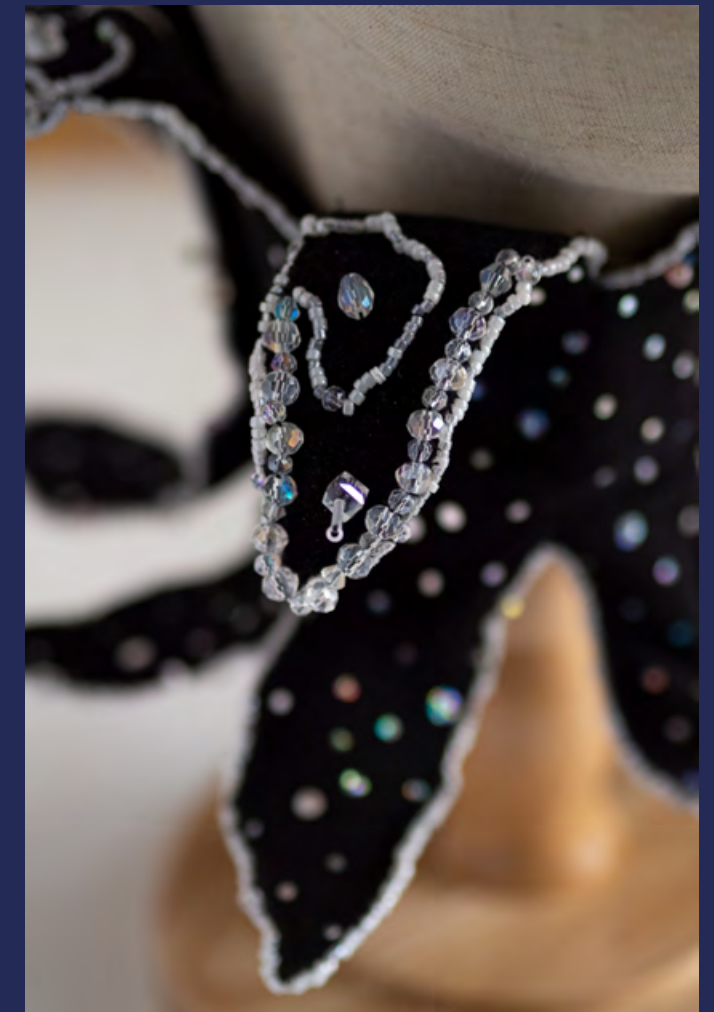

~ 5 days

Concepts research - Costume accessories

- Nov. 2025 **1 Pearl head piece** Inspired by *Pelléas et Mélisande* - under 10€
This airy crown of pearls echoes Mélisande's elusive presence: light, suspended, almost immaterial. Delicate yet unstable, it embodies innocence, vulnerability, and the quiet tension between exposure and disappearance.
- Technique Beads on aluminium wire ~ 1 day
- Dec. 2025 **2 Earrings** Inspired by *Undine*
They function as organic extensions as much as ornaments. Shells and pearls are treated as residual forms, shaped by water, time, and constraint. They embody transformation as a state of displacement rather than fulfillment.
- Technique Beading with shells and fresh water pearls - 1 day

- Feb. 2026 **3 Neck piece** inspired by *Salomé* - under 10€
Ornament becomes tension rather than decoration. The metallic structure forms a ceremonial plastron, while lace and pearls add a fragile, luminous sensuality. A sculptural collar poised between exposure and restraint.
- Technique Aluminium wire with painted glue gun, upcycled lace ~ 3 days
- May. 2026 **Lion head piece**
(work in progress)
- Technique Structure in papier-mâché

March 2026	Collar - under 10€
Inspiration	Inspired by <i>Pierrot Lunaire</i> , it reinterprets the royal ruff as a theatrical collar between court costume and commedia dell'arte. The black velvet surface, scattered with star-like reflections, evokes a nocturnal stage space shaped by moonlight. Ornamental yet unsettling, it frames the body as a lunar figure: elegant, unstable, performative.
Technique	Layers of fabric sewed with internal structure in aluminium wires
Duration	~ 5 days

CONCEPTS RESEARCH
Costume Accessories

April 2026
Inspiration

Ruff Collar - under 10€

Inspired by *Maria Stuarda*, this ruff collar explores duality through material tension. It retains the structured silhouette of Renaissance royalty while contrasting grandeur, fragility, and rivalry.

Technique

Layers of bubble paper and upcycled lace, beads

Duration

1 day

CONCEPTS RESEARCH

Shoes

Since
Oct. 2025
Technique

Creation of shoes

Under 10€ - Upcycled shoes (air clay, faux fur)
adapted to stage ~ 4 days

Fiberglass resin shoes (personal school project inspired of
Sisyphus myth) - student project made in 2012

CONCEPTS RESEARCH

REPAIRS Garnements and Objects

Selected examples of repair and adaptation work

Waistband enlargement on silk garment,
Elastic replacement at the waist,
Sleeve length alteration with replacement of strap loops,
Broken vintage glasses (glue, resin, nylon thread for additional solidity)
Stain removal on white shoes (with paint)
Broken vase (ceramic glue adapted to kiln, additional glaze)

Theater & Backstage Skills

- Costume accessories and prop construction
 - Costume alterations and hand stitching
 - Quick repairs and problem solving
- Dressing support during rehearsals and performances
- Prop preparation, tracking and continuity
 - Labeling, packing and transport
- Material sourcing and workshop organization
 - Stage/exhibition setup
 - Basic set dressing

Workshop skills

Creating and adapting objects

- Fabric (hand stitching, sewing machine and urgent textile repair)
- Wood (carpentry basics: cutting and assembly)
- Ceramics and clay
- Paper (papier mâché, bookbinding, printmaking)
- Basic metalsmithing
- Packing, labeling, stock organization
- Quick problem-solving during rehearsals and setup
